

the value of a tree

WELCOMENVIRON

A tree that lives for 50 years generates Rs 5.3 lakhs worth of oxygen, recycles Rs 6.4 lakhs worth of fertility and soil erosion control, creates Rs 10.5 lakhs worth of air pollution control and Rs 5.3 lakhs worth of shelter for birds and animals. Besides, it provides flowers, fruits and lumber.

So, when even one tree falls or is felled, the city loses something worth more than Rs 32 lakhs.

Think before you cut a tree!
